Reflective questions about YOUR environment

On the way to the bathroom, you walk past a child's coat on the floor.
Do you:
- Step over it?
- Hang it back up?
- Ask a child to help you find where it goes?

While reading a story you notice one of the pages is ripped.
Do you:
- Return the book to the shelf?
- Remove the book and add repairing to your to do list?
- Repair the book with some children?

Can you think of a scenario that happens in your setting?
