

Reflection – Thinking about your Windscreen

- Being aware of what is around you is very important.
- Your position is essential.
- Make sure you can see as much of the room and as many children as possible.
- Are there any blind spots in your vision of sight
- Think about where you are in relation to other staff and the level you are on (standing/sitting). Try to avoid being in the same area as another member of staff unless eactivity requires you to be.
